Rochelle – I did not get any takers on this. Sorry we don't have anything prepared already that would suffice. With Teizeen out on maternity leave, we're stretched to keep our current commitments so can't develop a new poster at this time.

Hi Rochelle – Let me see if anyone is developing a poster for the Salish Sea conference; I'm giving a talk on a separate subject so don't have a poster to offer for this event. I'll get back to you later this week...

Hi Mindy,

I hope that you are well. We are hosting a "world café" style poster session during the EPA harmful algal blooms workshop March 29-30, and I am hoping that you or a colleague could present on the Salish Sea model? I realize that it does not simulate harmful algae, per se, but we are highlighting related work on nutrient-algal dynamics in the world café session. If that might work for you, please let me know and I would be happy to send you more info/logistics, etc.

All the best,

Rochelle
